

 Sitecore Experience Platform / Content authoring / The editing tools / The Content Editor / The Application Options

The Application Options

Version: 10.2

In the **Application Options** dialog box, you can specify which elements you want to display in the Content Editor and in the **Drag & Drop** dialog box when you upload media files to [the Media Library](#).

To open the application options for the Content Editor:

- In the top left corner of the Content Editor, click the **System** menu, and then click **Application Options**.

This topic describes each of the tabs in the **Application Options** dialog box

The Content Editor tab

On the **Content Editor** tab, you can specify what elements you want to display in the Content Editor.

Section	Field	Description
Show/hide	Item title bar	Show or hide the Item Title bar.
	Field section titles	Show or hide the Field Section titles.
	Fields from the Standard template	Display a large number of fields that are used internally by Sitecore. These are hidden to improve performance.
	Bucket items	Display the otherwise hidden items in an item bucket in a folder structure. You should clear this check box because it will prevent the system from unnecessarily loading all the items in the content tree.
	Hidden items	Show or hide the hidden items in the content tree.
	Quick info section	Show or hide the Quick Info section.
	Quick action bar	Show or hide the Quick Action Bar .
	Search panel	Show or hide the Search panel.
	Validator bar	Show or hide the Validator bar.

Section	Field	Description
	Prefetch collapsed sections	The system fetches and keeps the fields from the Field Sections in memory before the section is opened.
	Content profiling	Show or hide the Content Profiling buttons. The Content Editor with elements labeled
Field values	Show input controls	Shows the field values as input controls. This is only relevant for administrators.
	Show raw values	Shows the field values as raw values. This is only relevant for administrators.
Pages	Show pages bar	Determines whether the shortcuts to the Sitecore applications are displayed at the bottom of the Content Editor

The View tab

On the **View** tab, more options determine what is displayed in the content tree, the Content Editor, and the Marketing Center.

Section	Field	Description
Content tree – item names	Display name (language-specific name)	Select to show the language-specific display name that you can give an item.
	Item key	Select to show the item key in the content tree.
Content tree root	Show the content tree in the Content Editor	Show the content tree in the Content Editor
	Show entire content tree	Show the entire content tree in the Content Editor. Clear the check box to show only the Content node in the content tree.
